Balance unredeemed		\$ 17,607.38
Interest collected		\$ 1,255.03

Respectfully submitted,

DELLISON C. CONROY,

Tax Collector.

Report of Police Commission

To His Excellency; the Governor of the State of New Hampshire, and
His Honor, the Mayor and the City Council of the City of Berlin:

In accordance with the provisions of Chapter 160, of the Session Laws of 1905, we herewith submit the annual report commencing December 31st, 1935 and ending December 31st, 1936.

Since our last report one new officer has been added to the personnel of the department, and one removed from patrol duty was assigned to janitor service, and on December 19th Mr. E. O. Gilbert took up his duties as Police Commissioner, replacing F. Maurice La Force, whose term expired September 1st, 1936.

Due to the cut in our appropriation Target Practice will not commence until the end of the fiscal year.

Appropriation

Owing to the financial condition of the city our appropriation was cut to \$38,000.00 and our books show an expenditure of \$40,070.98, leaving an over-draft of 2,070.98. In addition to our regular appropriation we were allotted the sum of \$271.00 to purchase new equipment, such as a boat, grappling irons, rope for safety lines, and an Inhalator, all of which is used in the preservation of life and property and the recovery of drowned persons.

Recommendations

We would again respectfully call the attention of the Honorable Mayor and Council to the deplorable condition of our present cell-room, consisting of nine individual cells, where in addition to a small hallway or corridor on the first floor, nearly four thousand persons including lodgers and persons not classed as prisoners, but who were unfortunate in other ways, were cared for during the past year.

The fact must be recognized that conditions such as these are unsanitary, due to improper ventilation, lighting, and the inability to properly heat this part of the building. Therefore, we sincerely trust that some action may be taken during the coming year to relieve this condition, either by the erection of an entirely new building or an addition to the present one, as specified by plans recently submitted.

Personnel of Police Commission

GEORGE F. LOVETT, appointed July 6th, 1935

Term expires Sept. 1st, 1937

ERNEST JOHNSON, appointed Sept. 1st, 1935

Term expires Sept. 1st, 1938

E. O. GILBERT, appointed Dec. 15th, 1936

Term expires Sept. 1st, 1939

For information in regard to activities of department during the past year we respectfully refer you to our City Marshal's Report.

Respectfully submitted,

GEORGE F. LOVETT

ERNEST JOHNSON

E. O. GILBERT

Police Commissioners.

Berlin Police Department

Report of the Inspector of Buildings

To His Honor, the Mayor, and City Council of the City of Berlin.

Gentlemen:

I herewith submit my report as Inspector of Buildings, for the year ending January 31, 1937.

There were issued during the year 173 permits, with a total value of \$91,894.00. These permits were divided as follows:

91 Permits for general repairs and alterations with a value of \$47,346.00.

60 Permits for reroofing with a value of \$11,763.00.

5 Permits for new houses with a value of \$3,760.00.

15 Permits for private garages with a value of \$6,035.00.

2 Permits for filling stations with a value of \$23,000.00.

All applications for the erection of electric signs and installation of gas pumps which were referred to this office have been investigated and acted upon.

Copies of all permits are on file at this office.

In conclusion, I wish to thank the Mayor and members of the City Council, City Officials, Building Contractors and the Public for their hearty cooperation.

Respectfully submitted,

ULYSSES H. REID,

Inspector of Buildings

February 2, 1937

City Planning Board

January 31, 1937

To the Honorable Mayor and City Council:

This Board was established by an ordinance passed by the Council on January 14, 1936, and the first personnel of the Board was appointed March 30, 1936. The ordinance creating the Board was based upon the City Planning Enabling Act, Chapter 55 of the Public Laws of 1935.

During the ten months of its existence the Planning Board has devoted most of its time and attention to the collection and interpretation of fundamental facts about Berlin, so that a sound basis would be laid for the city planning studies which are its object. A very great deal of pertinent information is now in its possession. It is the intention of the Board to publish the more important sections of this material as rapidly as it can be put into shape, and some of it (a general introduction and the sections on "Climate" and on "Population") is now in the hands of the printer.

In addition to this preparatory work, the Board has considered and reported on several specific matters which were referred to it by the Council. In general, the Board has preferred not to make many definite proposals until it had a more complete and comprehensive knowledge of the facts of the situation.

In its essence, City Planning is a long-time proposition. Several years may be required to demonstrate the real value of the work. In the meantime, the Board urges that the Council continue its support, and appropriate the modest sum which is required to carry on the work at this stage.

The Board has had the benefit of the very valued encouragement and advice of Capt. Charles F. Bowen, and later of Mr. Fred P. Clark, of the State Planning and Development Commission, and takes this occasion to express its appreciation.

In conclusion, the Board wishes to express its thanks to the other city departments, which have cooperated most willingly in the collection of data; and also to the numerous citizens who have assisted on the several advisory committees which were set up.

Respectfully submitted,

BERLIN CITY PLANNING BOARD—

Mayor Arthur J. Bergeron, ex-officio.
City Councilman Tony Eastman,
City Engineer P. L. Murphy,
W. B. VanArsdel, Chairman,
George Reid,
Howard Woodward,
R. A. Webber, Secretary.
T. D. Walsh,
R. J. Barbin

Report of Fire Department

February 16, 1937

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:

I herewith submit the annual report of the Fire Department of the City of Berlin for the year ending December 31, 1936.

During the year the department answered 620 calls, including eight calls for assistance in other towns, two calls for rescue squad with inhalator, and eight false alarms.

The department traveled 763.1 miles, worked 233 hours and 13 minutes at fires and used the following material: 19,750 ft. of fire hose, 50,980 ft. of chemical hose, 8,348 ft. of ladders, 66 gallons of chemicals and 10,074 gallons of water from booster tank.

The fire loss for the year was \$17,030.92 on buildings and \$3,519.14 on contents making a total loss of \$20,550.06. This is considered a low loss for cities our size and will be very close to the record low for New England in 1936.

The fire apparatus, appliances and tools are kept in good repair. The wiring at the central station which was obsolete and overloaded has been all rewired, and a new switchboard set up.

The Fire Alarm System has been repaired during the year and is in perfect working condition. We have changed twelve old style street boxes for new ones, also have added five new boxes, making a total of 69 street boxes.

The Paige combination that was purchased in 1920 is still in storage at the central station, but it is beyond repairs and I wish to recommend that money be appropriated for the purchase of a new piece of apparatus which we are badly in need to provide all the protection possible.

During the year we have installed three hydrants. Plans should be made to install a few every year as we still have some sections that are poorly protected.

In closing, I wish to express my thanks to the Mayor, City Council, Fire Committee and residents of the City for the many favors and courtesies shown me in the performance of my duties.

Respectfully submitted,

O. B. BERGQUIST
Chief Engineer

Report of Library Trustees

February 20, 1937

To His Honor, the Mayor, and City Council of the City of Berlin:

We, the Trustees of the Berlin Public Library, herewith submit our forty-third annual report, together with the Treasurer's statement and the Librarian's report.

Library Building

Some essential repairs were made during 1936, including emergency repairs to the roof, and painting of the interior of the building. New lighting fixtures were installed in the Children's Department, to provide better distribution of light. Further repairs are required to keep the building in operating condition, and we hope to be able to continue these during 1937.

Library Equipment

Book shelves have been repaired and strengthened thruout, and some new shelves added. Tables and chairs have been painted, and reinforced where necessary. Some new chairs are needed to replace those beyond repair.

Books

As may be seen from the Librarian's report, our stock of books has increased only slightly during the year. Purchases of new books, and gifts, are nearly offset by the amount of books withdrawn. Re-binding and mending, within limits, will keep our book stock nearly intact, but most books become out-of-date within a few years. Enough funds should be provided to buy some of the latest books, especially in the non-fiction class, which has been showing a continued increase in circulation.

General

We gratefully acknowledge the receipt of many books from private donors.

We note with gratification a substantial increase in the number of registered borrowers.

Respectfully submitted,

ARTHUR J. BERGERON
LEO J. CAMPAGNA
MRS. SHIRLEY TEARE

Report of the School Department

January 31, 1937

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:

Herewith we submit a brief report of the Department of Public Schools, for the city fiscal year ending January 31, 1937. A detailed educational report is issued at the close of each school year (June 30), and copies may be secured from the office of the Superintendent of Schools.

This year \$173,526.26 was spent by the School Department, \$7,363.94 being paid out of the Equipment Fund (bond issue), and the balance, \$166,162.32, being paid from regular city appropriations. As the city granted the School Department \$152,000.00 in addition to credits of \$4,010.27, this shows an overdraft of \$10,152.05. Of this amount \$4,712.61 is due to a change in the date when the city closed its books for the fiscal year and \$4,851.91 was charged back against the regular appropriation from the Equipment Fund (bond issue). After deducting these amounts it would show that the School Department had an overdraft of \$587.53.

The Board of Education and school officials have always tried to live within a given appropriation. We have tried to operate the schools in as efficient a way as possible. A study of school expenditures for the last few years will show that it is not possible to offer the boys and girls of Berlin the present educational program at a cost of less than \$165,000.00. Some of the positions dropped due to the depression should be restored and teachers' salaries should be increased another year.

We wish to express our appreciation to the Mayor and the members of the City Council for their cooperation. The public schools belong to the public and solicit your interest and cooperation.

Respectfully submitted,

HILDRETH BROWN, Chairman

E. J. LEGASSIE

Report of the Overseer of the Poor

January 31, 1937

To His Honor, the Mayor, and the City Council of Berlin:

Gentlemen:

I herewith submit my report as Overseer of the Poor for the year ending January 31, 1937.

The Relief Department this year expended the sum of \$116,570.73 for the care of direct relief cases, soldier aid cases, board and care of children and Old Age Assistance cases. This amount was \$65,147.35, less than the total expended last year.

The appropriation of \$70,000. given the department this year would have been sufficient if the State of New Hampshire had fulfilled their obligation of reimbursing the city on the basis of 50% for relief expenditures for the entire twelve months of the fiscal year. Total reimbursement from the State amounted to only \$22,534.80, leaving the State indebted to the city in the amount of nearly \$25,000., for the months of February, March, April, May and June. For the month of January the State reimbursed only on the basis of 33 1/3%.

In addition to the above amount the department received reimbursements totaling nearly \$2,000., from individuals for assistance granted and for which they were induced to repay the city.

While the expenditures for the department dropped nearly 36%, the case load decreased only about 18%. A total of 735 cases or 2513 individuals were aided during the year. Cases of aid to soldiers dropped from 90 in 1935 to 68 this year. This decrease is believed to have been the result of the granting of the soldier's bonus this last summer. The old age assistance cases, which are billed to the city at the rate of 50%, this year increased 15 in number, and the costs of caring for them also increased when the Federal government took over the old age and started paying 50% of the expenses. During the year past 39 cases or nearly 180 individuals, who previously received aid from the city were transferred to the county relief office.

The Federal Work Projects have assisted the department a great deal and have been responsible to a great extent for the decrease in expenses. Approximately 300 people certified by the City office have been employed on these projects during the year. The WPA sewing project located in the Burgess school has employed 20 women from the city office and in addition to this has furnished the department with a great

amount of needed clothing. Another department that has greatly aided the relief recipients and a number of border line cases, is the Surplus Commodities Depot also located in the Burgess School. This office supplied an enormous amount of surplus food and clothing, to needy families.

The personnel of the department has been decreased by two girls in the year past, leaving a force of four investigators and four office workers. Fifty per cent of the salaries of those employed is paid by the state.

It is customary for the Overseer of the Poor in his annual report to recommend methods of decreasing the expenditures for relief, or to predict the future outcome of this heavy relief load. At the present time I can see no hope of change, unless the Brown Company, finds it possible to hire more men, or the city is blessed with some new industry. I also hope that our present Governor and State Government will pass a bill this year relieving the city of the greater part of the relief expenses.

I wish to thank His Honor, the Mayor, the members of the City Council, particularly those who served on the Relief Committee, other City Officials, State Welfare and Relief Officials and the Officials of the Federal Works Projects for the valuable aid and advice given me during the year.

Respectfully submitted,

ERMOND HUGHES

REPORT OF THE HEALTH OFFICER

Berlin, N. H., December 31, 1936

To His Honor, the Mayor, the City Council and the Members of the Board of Health:

I herewith transmit a report of the activities of the Health Department for the year 1936.

I wish to express my appreciation for the splendid cooperation extended me by all departments of the City Government and by the Members of the Board of Health and the Official Staff.

Communicable Diseases

Comment: Communicable disease control is undoubtedly the most important duty of a health officer. A study of the accompanying communicable diseases tabulation proves that Berlin has been extremely fortunate in this particular respect. There have been no epidemics, only a few sporadic cases which were soon completely checked.

Small Pox: The annual pre-school vaccination clinic was held, with 502 being vaccinated. There are still about 10 children attending school who, because of doctor's excuses etc., have not been vaccinated.

Diphtheria: The annual diphtheria immunization clinic was held with 248 being injected. For this clinic we used Refined Diphtheria Toxoid (Alum Precipitated); a single immunising dose preparation. This material is not recommended by some authorities, but its use in Berlin seems justifiable. There have been no cases of diphtheria diagnosed on individuals so treated, there has been a remarkable scarcity of unfavorable reactions and there is only one administration necessary. There will be no Schick Test performed, relying on the freedom from Diphtheria as the proof of the value of the preparation.

Venereal Diseases: It is not generally known that this department in collaboration with the State Board of Health conducts a free weekly clinic for venereal diseases. It is noteworthy that during the last six months of this year, monthly attendance at this clinic jumped from 27 to 100, besides 3 patients being transferred to private physicians. The remarkable increase in clinical attendance was brought about by an educative programme, the assistance of the police being resorted to but once.

Incidentally, syphilis, gonorrhea and chancroid being communicable diseases, they are reportable as such by law, and we have every reason to believe that contrary to the opinion of many, Berlin has not a large number of individuals so infected. It is true that several persons were advised and did go to the County Hospital for a course of treatments and it is also true that there are a few more persons who will undoubtedly because of their sinful negligence in refusing treatment be forcefully quarantined at that hospital. Thomas Parran, Surgeon General, is

quite explicit in his insistence that the next great plague to go is syphilis. Work, information and control are bringing tuberculosis down to an irreducible minimum and then the fight on syphilis will be on in full. It is gaining momentum even now, and Berlin will not lag behind, neither with a curative and preventative programme, nor with an educative programme.

Tuberculosis: The New Hampshire Tuberculosis Association conducted its monthly clinics as usual. Dr. Robert Kerr, Executive Secretary of the Association, and the founder of the clinics in Berlin returned after an absence of some years. Berlin is very fortunate in having the services of so capable a specialist. Despite this, it was with a feeling of regret that we learned that Dr. Robert Deming of Glencliff, who conducted the clinics of late years, found it impossible because of additional duties to continue in Berlin. These clinics are made possible largely through the annual sale of Christmas Seals, and Berlin, despite enjoying the privileges of a clinic has not of late met the assigned quota. Hence, we were very fortunate to have them continued, and it is hoped that a better response will be made next year.

Others: Communicable diseases demanding quarantine and placarding have been so treated, and all other care taking and restrictive measures met.

Sanitary Inspection

Several routine inspections both alone and in company with state inspectors were made of most of the farms and dairies supplying milk to Berlin, also of drug stores, soda fountains, bakeries, restaurants, beer parlors, bottling establishments, barber shops, and over-night lodging places. The purpose of these visits is primarily to protect the consumer so that the particular contact will not be a source of disease either by ignorant or negligent procedures. We will soon conduct a dishwashing and glasswashing campaign in Berlin so that **all** food establishments thoroughly **sterilize** such utensils after **every** use. This has not been too closely checked to date because many of the inspections had to be in the nature of an introductory tour to appreciate present conditions and the prevalent standard.

Additional inspections of unsanitary conditions including faulty plumbing unsanitary premises, health menaces and nuisances, mostly prompted by complaints were handled as deemed proper.

An outstanding abuse under this heading has crept in, namely the manner in which garbage, etc., is being handled before being picked up by the city trucks. Much of the material is put out any time, anyplace and in improper receptacles with very unsatisfactory results. Subsequently it is pawed over and may become a health menace besides giving a very unsightly appearance. Children may be seen going through

materials put out from houses, offices, etc., in which there is sickness, and some method should be devised to curtail this practice. Proper metal receptacles with cover, required by law, would help this situation immensely.

Water Supply

Samples of water both public and private have been examined routinely. The city water is 100 per cent chlorinated and laboratory examinations reveal that it remains of a uniformly high quality. Notwithstanding this, occasional rumors and complaints come into this office that the water is not good, and is causing more or less intestinal upsets. Such complaints cannot be substantiated.

Samples of water from private sources, springs, etc., were taken and it is recommended that such places be inspected and the water examined at least twice a year and as often more as it is thought necessary. Owners of such supplies should voluntarily request such precautions from this department.

Samples of ice from several ice dealers have been examined with very satisfactory results.

Milk Supply

Comment: All milk sold in Berlin comes from Tuberculin tested cows. Much of the milk from the more distant producers in Maine, (South Paris, Norway, etc.) has been discontinued and the dealers have turned to more accessible farms particularly around Jefferson. This is very desirable from many viewpoints, especially the aid to Coos County farmers and the ease with which such farms may be inspected.

Quality of Milk: A detailed report of the quality of the milk both in regards to cleanliness and food value is not available at this date. In brief, the milk men are for the most part very cooperative and anxious to make a good quart of milk. It is hoped that by the end of the coming summer a standard may again be set to which all the milk sold in Berlin will conform. About 38 per cent of the milk consumed in Berlin is pasteurized.

TABLE 3

Milk Producers' Licenses	23
Milk Dealers' Licenses	23
Store Dealers' Licenses	85

Above mentioned licenses expire June 1, 1937

Vital Statistics

Population: The United States Census Bureau population figures for 1930 give Berlin a population of 20,018. Population figures for other years used in this report except the estimated figure for 1936, were obtained from a recent survey and deduction made by the City Planning Board.

Death Registration: The Resident Death Rate is slightly higher than last year, but lower than 1934 and lower than the yearly average of the 10 preceding years.

Birth and Stillbirth Registration: The registration adopted in this report is slightly less than former figures but agrees with that used by the City Planning Board. This method of adhering to statistics pertaining to residents seems to present a more accurate picture.

Maternal and Infant Welfare: Your attention is respectfully called to the infant mortality rates, the neonatal infant mortality rates, and the stillbirth rates. The almost unbelievable decline has a definite significance and because of it this department will soon reorganize its nursing service. The reorganization will be principally in the form of additional service. A detailed study of the above mentioned mortality figures revealed that an aid in the solution of the problem rested in contacting the expectant mother and the very young infant. Previously our contacts began at about six weeks or when the baby was old enough to be brought to the clinics. In other words, our mortality rates were high before we began working: incomplete prenatal care, too many premature births, too many stillbirths, inadequate post-partum care. We are very enthusiastic concerning the new policy about to be adopted and with it in force expect to keep the rates down to an average that we can be proud of. The demonstration is made possible through a cooperative plan with the Division of Maternal and Infancy Welfare of the State Board of Health.

	<hr/>
Total	\$ 5,972.96

Conclusion: Our energy is now turned toward 1937.

The conduct and result of the more complete nursing service will be of great interest.

The establishment of a service for crippled children with possibly an orthopedic clinic is being worked on now.

The possibility of matching some of our appropriation with outside funds is being investigated. If this seems feasible, it might be practical to employ a sanitary inspector to inspect milk sources and eating establishments and to conduct laboratory analyses.

Respectfully,

JOHN C. GREENAN

Report of Water Commissioners

February 26, 1937

To His Honor, the Mayor, and City Council, Berlin, N. H.

Gentlemen:

We beg to submit to your Honorable Body, a general outline report of activities of your Board of Water Commissioners.

Office

A change in the personnel of the department, during January, 1936, whereby the office of Cashier of the department was merged with that of Assistant Superintendent, and an assistant cashier appointed. This set up is working very satisfactorily.

Physical Property

Godfrey Dam reservoir storage capacity was increased very materially during the year, and has facilities for the impounding of some twenty-five million gallons of water. The storage reservoirs on the East Side, or Horne and Bean Brook reservoirs, have a sum total capacity of fifteen million gallons so that our system of water storage reservoirs has a grand total of forty million gallons.

The general condition of the supply mains throughout the city is good and we are attempting gradually, as finances will permit, to replace small diameter pipe, used as main, by pipe of a size ample to take care of the material growth in population.

We are getting out a departmental report in pamphlet form, which will be distributed to property owners of our city.

A healthy financial condition of your Water Department is evident from the fact that a ten per cent reduction in water taxes was granted to tax payers, along with an additional five per cent on water bills paid within thirty days of presentation.

For financial condition of your Water Department we beg to refer you to our City Auditor's Report.

We wish to extend our appreciation and thanks to your Honorable Body for the hearty cooperation we have received from you as well as from all municipal departments.

Respectfully submitted,

Board of Water Commissioners

ARTHUR J. BERGERON, Mayor, Ex-Officio

GEORGE F. LOVETT, Chairman of Board

ERNEST J. GAGNON, Clerk of Board

OTTO J. A. DAHL, Commissioner

HENRY G. GOSSELIN, Commissioner

Report of Superintendent of Water Works

Board of Water Commissioners
Berlin, N. H.

Gentlemen:

I have the honor to submit herewith the twelfth annual report of the Water Department for the year ending December 31st, 1936.

The Department has laid 1194 feet of new water mains during the year. Labor for this work was furnished by the Works Progress Administration, while the materials and supervision were supplied out of the department's funds. No additional revenue was realized from the extension, the object being to eliminate cross lot house service lines which were of insufficient size to furnish proper water service and have been the source of numerous complaints from water users in the section. One hydrant was added on the extension improving fire protection, thereby deriving a direct benefit to property owners in fire insurance premiums.

Sixteen new services were added during the year, bringing the total number of services in use to twenty eight hundred fifty-six. More old services were relaid during the year than in any other one year since the department has been operating. A total of sixty-three services being relaid from the main to the property line.

During the year it has been the policy of the department to install meters upon a signed application. Heretofore, meters were installed only upon inspection of the premises, and in residential houses having three or more families. Thirteen flat rate services were changed to meter this year and we have applications for seventeen more on file for January 1937.

This year, we are proud to say, has been the first year that all water has been one hundred per cent chlorinated. According to State Board of Health analysis reports of water samples taken at random, approximately every two weeks, every report has been satisfactory. Much has been done to keep the drinking water free from sediment during periods of high water. Experimental strainers were used during such periods throughout the year which proved very successful. It is hoped that these can be improved upon next year and a larger layout installed.

The purchase and installation of electrical chloro-no-flow recorder for use with our Bean brook chlorinating plant has been a valuable ad-

dition. It is now possible to keep records of all water consumed in the city. Further on in this report will be found monthly records of water consumption for the year.

The month of August caused considerable anxiety this year, it being the driest month on record. During the month of August the consumption increased eighteen per cent above normal, fifty per cent of which can be traced directly to lawn sprinkling, the balance to unnecessary waste.

With the proposed York Street extension and underpass to Hillside Avenue, it was necessary for the department to change the course of the main line supply which extended from Hillside Avenue to the so called Irish siding on Willow Street. The pipe was laid through solid ledge a number of years ago. With the extension of York Street, considerable more blasting and a much lower street grade is proposed. After much consideration it was decided that the city could not afford to temporarily disconnect the line while construction of the street was carried on, so a new 14-inch cast iron water main was laid up Hillside Avenue, down Blanchard Street and hooked up with the old line on Emery Steet. We were very fortunate in obtaining Works Progress Administration labor, while supervision, tools, pipe, etc., were supplied by the department.

Plans are now under way to gridiron Green Street and Third Avenue together with a 6-inch main by way of Jolbert Street. For many years the domestic service in this section has been very poor and unsatisfactory. Thirty families are supplied with service through water pipes of insufficient size which extend from cellar to cellar. Upon completion, each house will have an individual service pipe and the old service discontinued. One new hydrant will be placed, adding fire protection to surrounding property. Arrangements have been made with the Works Progress Administration for labor, while the department will supply supervision, materials, etc. Work will begin on this project about February 1st, 1937.

Work on our Ammonoosuc reservoir was started earlier this year than usual. On April 20th we moved onto the site with our own crew and sixteen men from the Works Progress Administration.

Our aim this year was to deepen the basin so that in periods of high water it would serve as a settling basin. Work started at station 3 plus 50 and a grade of three inches in each one hundred feet established. The cut varied from six inches to about seven feet in the bottom proper for a distance of six hundred feet. Above station 9 plus 50 additional top soil was removed for three hundred feet. This cut varied in some places to eleven feet.

Forty three thousand cubic yards of material were removed, hauled out of the basin and deposited on the banks high above the reservoir.

The water surface at elevation 1490 has been increased from six to eight and one-half acres this year. The storage has been more than doubled, or increased from ten to twenty-two million gallons of water. Approximately twenty-five thousand dollars was spent during the year, of which four thousand was furnished by the Works Progress Administration.

Recommendations

During the latter part of December a cross section of the bottom of Keene reservoir was made through the ice. Soundings were made at twenty-five foot intervals. The results showed that the bottom was covered with mud ranging in depths of six to fourteen inches, and is equivalent to a loss in storage of nearly one million gallons of water.

It is recommended that Keene and Anderson reservoirs be given a thorough cleaning next year as neither reservoir has been washed for about fifteen years.

In closing, I wish to express my appreciation to the Board and members of the department for their hearty cooperation in helping me perform my duties during the year.

Respectfully submitted,
WALLACE GRAVES
Superintendent

 LEO J. CAMPAGNA,
 City Treasurer,

Auditor's Report on Water Works

922 Elm Street,
Manchester, N. H.
February 8, 1937

Board of Water Commissioners,
Berlin, New Hampshire

Gentlemen:

In performance of my duties as City Auditor, I have made an audit of the books and accounts of the Berlin Water Works for the year ended December 31, 1936. Quarterly examinations were made on April 30, July 31, and October 31, 1936.

A complete check was made of the cash received. The receipt stubs which represent cash paid to the cashier are listed on adding machine tapes. The stubs on file were checked to these tapes, the tapes tested for addition and all totals checked to the cash receipts journal. The receipts for each day as thus entered in the cash receipts journal were then checked to the deposits listed on the statements of the Berlin City National Bank.

The disbursements were verified by examination of the canceled checks and comparing them with the expenditures recorded in the check register. The statement rendered by the Berlin City National Bank on December 31, 1936 was reconciled with the records in proving the cash balance to be correctly stated.

The vouchers approved for payment by the Commissioners were examined and checked to the purchase record.

The abatement vouchers signed by the Commissioners for authority to credit customers accounts for such allowances were examined.

The Certificates of Deposits are on file in the vaults of the Berlin Savings Bank and Trust Company. They were examined in the presence of Messrs. Dahl and Tankard.

A trial balance was taken of the general ledger. All journal entries were carefully scrutenized.

The accounts receivable cards were added and found to be in agreement with the general ledger. Approximately one hundred of these accounts selected at random were confirmed by sending them statements requesting them to notify me if the unpaid rents shown to be due were correctly stated.

In consequence of my examination, I submit the following statements. These show the financial condition of the Berlin Water Works on December 31, 1936, the income and expense for the year ended then and a list of the bonds outstanding at the end of the fiscal year.

Exhibit A	Balance Sheet
Exhibit B	Statement of Income and Expense
Exhibit C	List of Bonds Outstanding

Very truly yours,

HIRAM B. HASKELL,

Certified Public Accountant

Auditor's Report

922 Elm Street
Manchester, N. H.
February 13, 1937

Honorable Mayor and City Council
Berlin, New Hampshire

Gentlemen:

Acting in accordance with the terms of my engagement as City Auditor, I have made an audit of the books and accounts of the City of Berlin for the year ended January 31, 1937. At the end of each three months period an interim examination was made. The present examination completes the audit for the entire year. The records and books which were examined are described in the comments which follow. The statements listed below show the financial condition of the City of Berlin on January 31, 1937, an analysis of the cash received and disbursed during the year ended then, a statement of the budget accounts, an analysis of the major departmental expenditures, a list of the trust funds and a list of the bonds outstanding:

Exhibit A	Balance Sheet
Exhibit B	Statement of Cash Receipts & Disbursements
Exhibit C	Statement of Budget Accounts
Exhibit D	Analysis of Departmental Expenditures
Exhibit E	List of Trust Funds
Exhibit F	List of Bonds outstanding

BALANCE SHEET

Exhibit A, Balance Sheet, shows the financial condition of the City on January 31, 1937. So far as possible to do so, all assets and liabilities have been included. This embraces the estimated amount receivable from the State of New Hampshire for January 1937 relief. The warrant for bills approved by the Committee on Accounts and Claims on February 1, 1937 and by the Mayor and City Council on February 2, 1937 were for invoices of January 1937. As they bear no relation to the fiscal year beginning February 1, 1937, they are properly chargeable to the fiscal year ended January 31, 1937. For this reason the proper departments have been charged and the amount due shown among the liabilities as accounts payable. Unfortunately, in some instances it makes the various appropriation accounts show rather unfavorably. For illustration, Lighting Streets contains thirteen monthly bills causing this account to show an overdraft. However, a correct starting point

has now been obtained and each administration henceforth should prepare a special warrant including all invoices for materials or services received up to January 31. In this manner each fiscal year will stand on its own merits.

Cash—\$164,681.82:

Berlin City National Bank—\$25,112.13

The cash received and disbursed by the City Treasurer through the year was completely checked. The cash received as shown by his cash book was checked to the deposits listed on the statements of the Berlin City National Bank. The cancelled checks were examined and compared with the check register in verification of the disbursements. In addition, the vouchers approved for payment by the Committee on Accounts and Claims were examined and compared with the Register of Disbursements. The statement rendered by the Berlin City National Bank on January 31, 1937 is as follows:

Balance per bank statement	\$ 41,136.72
Add, Deposit Not Credited	3,345.22
Total	\$ 44,481.94
Less, Outstanding Checks	19,369.81
Balance per Balance Sheet	<u>\$ 25,112.13</u>

National Shawmut Bank--\$55,751.72

The National Shawmut Bank of Boston confirmed the fact concerning the above to be as follows:

January 31, 1937	\$ 23,822.79
Deposit Credited February 3, 1937	31,928.93
As above	<u>\$ 55,751.72</u>

Manchester National Bank--\$24,141.17--

The Manchester National Bank confirmed the balance on January 31, 1937 to be \$19,141.17. A check for \$25,000.00 drawn in January but not yet paid by the bank reconciles this balance with the records.

State Treasury--\$59,676.80--

The foregoing balance was confirmed by the office of the State Fiscal Agent to be correct

City Clerk's Change Fund--\$75.00:

City Treasurer's Petty Cash Fund--\$15.00:

The above funds were counted and found correct.

Berlin National Bank--\$2,283.35:

A 5% liquidating dividend was received from the Berlin National Bank during the year.

Balance, February 1, 1936	\$2,609.54
5% Liquidating Dividend	326.19
Balance January 31, 1937	<u>\$2,283.35</u>

Due from State of New Hampshire--\$2,469.42:

The amount estimated to be received from the state of New Hampshire for January 31, 1937 has properly been credited to the City Poor Department and shown as an asset.

Taxes Receivable--\$200,126.38:

The open accounts in the tax ledgers for the years 1931 to 1936 were added, listed and compared with the Treasurer's ledger. In November 1936, a notice was sent to several tax payers to notify me if the balance shown to be due was correctly stated. The same procedure is now in process in regard to other accounts.

As between poll and property, the taxes for the years 1931, 1932 and 1933 are divided as follows:

	1931	1932	1933	Total
Poll	\$ 418.00	\$ 700.00	\$1,286.00	\$2,404.00
Property		9.25	7.50	16.75
Total	<u>\$ 418.00</u>	<u>\$ 709.25</u>	<u>\$1,293.50</u>	<u>\$2,420.75</u>

Both of the unpaid property taxes are due from the Sparton Radio Shop, 88 Mason Street.

The unpaid property taxes for 1934 are as follows:

Abramson, Goldie	134 Mt. Forist St.	\$ 3.35
Beaudoin, Jos.	109 Granite St.	16.75
Brown, Jack	161 Main St.	6.70
Boutin, Gaudias	W. Milan Rd.	3.01
Babin, Antoine	152 Grafton St.	67.00
Dufresne, D. & Son	823 Main St.	67.00
King, Mrs. Josie N.	320 High St.	3.35
Lewis, H. & Sons	113 Main Street	20.81
Labrie's Shoe Store	199 E. Mason St.	67.73
Lettre, Edward	Cates Hill	17.76
Morin, Roland	59 Main St.	64.34
Marcotte, Philias	175 Grafton St.	28.47
McGee, Christina	106 Spring St.	16.75
Nolette, Levi	193 Main St.	6.70
Paquette, Isidore	450 School St.	4.86
Phillips Shoe Store	54 Main St.	.35
Presidential Motors	38 Glen Ave.	167.50
Paulucci, Julie	138 Grafton St.	3.35
Roy, Jos. H.	Blanchard St.	10.05
Roberge, Louis	Exchange St.	130.65
St. Laurent, Henry A.	157 Pleasant St.	67.00
Stahl-Clarke Co.	45 Main St.	603.00
Toussaint, Edward Est.	87 School St.	83.75
Total		<u>\$1,460.23</u>

Tax Sales--\$17,607.38:

Property sold for taxes and on which a tax title has been taken are listed on cards in the Tax Collector's office. These were added and listed and found to be in agreement with the Treasurer's ledger. Divided as to years they are as follows:

1928	\$ 26.14
1929	15.70
1930	30.50
1932	663.93
1933	996.90
1934	3,504.81
1935	12,369.40
Total	<u>\$17,607.38</u>

Tax Deeds--\$1,445.22:

Property deeded to the City for non-payment of taxes during the current year totaled \$1,445.22. A card system on file in the City Clerk's office supports this figure

Unexpended Balances of Bond Issues--\$9,472.36:

New Equipment--\$3,449.92

Public Improvement--\$6,022.94

The foregoing represents the unexpended balances of the two bond issues of 1936.

The issue of bonds for New Equipment was \$50,000.00 and Public Improvements \$90,000.00. I have permitted only such charges to be made against these accounts which in my opinion seemed just and proper. Whenever any charges were made against these accounts which did not meet with my approval, they were transferred by charging the proper appropriation account.

Accounts Payable--\$13,780.06:

As stated previously, the warrant of February 2, 1937 was for business of the previous year and accordingly has been entered in the accounts of that year. The only exception was insurance policies dated February 1, 1937. The premium on these policies was excluded in recording the liability.

Notes Payable--\$250,000.00:

The records of the City Treasurer showed the following notes unpaid:

Note Number	Date of Note	Due Date	Amount
454	Dec. 21, 1936	Dec. 20, 1937	\$ 25,000.00
455	"	"	25,000.00
456	"	"	25,000.00
457	"	"	25,000.00
458	"	"	25,000.00
459	"	"	10,000.00

460	"	"	10,000.00
461	"	"	5,000.00
462	Jan. 15, 1937	Dec. 20, 1937	25,000.00
463	"	"	10,000.00
464	"	"	10,000.00
465	"	"	5,000.00
466	"	June 25, 1937	25,000.00
467	"	"	10,000.00
468	"	"	10,000.00
469	"	"	5,000.00
Total			<u>\$250,000.00</u>

They do not bear the endorsement of the State of New Hampshire.

The State Treasurer also confirmed the contingent liability of the City on account of the Brown Company notes to be as expressed in the footnote to the Balance Sheet on another page.

Dog Licenses—\$792.21:

In accordance with the New Hampshire Statutes, the net unexpended balance of dog licenses will be credited to the School Dept. on April 1, 1937.

Bonded Debt--City \$543,000.00

Bonded Debt--Water Works \$572,000.00:

Exhibit F on another page shows the list of bonds of the City still outstanding on January 31, 1937. This list is divided as between City Bonds and Water Bonds.

Net City Debt--\$428,741.56

Water Debt--\$572,000.00:

The excess of liabilities over assets is termed Net City Debt.

The following is an analysis of the changes in this account during the year:

January 31, 1936	Balance		\$ 363,493.35
	Additions		
Public Imp. Bonds Issued	\$ 90,000.00		
Equipment Bonds Issued	50,000.00		
From Transfer Account	15,742.13	\$155,742.13	
	Deductions		
State of New Hampshire			
Relief Fund-Supplemental			
October, 1935	\$ 3,453.21		
Relief Overpayment-July, '35	63.84		
Rebate on Interest on			
Notes Payable	18,236.58		
Brown Co. Reorganization			
Reimbursement	1,446.55		
Sale of Lots	200.00		

Discount on Notes Payable-		
Interest Adjustment	5,193.74	
Bonds Paid in 1936	<u>62,000.00</u>	<u>90,573.92</u>
Net Additions		65,148.21
January 31, 1937 Balance		<u><u>\$428,641.56</u></u>

Statement of Cash Receipts and Disbursements

Exhibit B shows an analysis of the cash received and disbursed during the year. The disbursements are in accordance with the Register of Disbursements of bills approved for payment by the Committee on Accounts and Claims. In the event that transfers were made by journal entries, the expenditures shown in Exhibit C. Statement of Budget Accounts would differ accordingly. Furthermore, the expenditures shown in this exhibit include the invoices of the last week of January 1937 and which were approved for payment February 2, 1937. This fact has already been referred to in the preceding comments.

Statement of Trust Funds

The trust funds are invested in various savings banks. The savings bank books showing the deposit of these funds were examined. A list of the funds appears on another page.

City Clerk's Department

The duplicate automobile registration permits on file in the City Clerk's office were added, listed and checked to his cash book. Receipts stubs for money received for various licenses etc. were checked to the cash book. The cash was then added. Signed receipts by the City Treasurer showed that the entire receipts were turned over to him once each month.

City Treasurer's Department

The records of the City Treasurer were examined. A trial balance of his general ledger was taken. All journal entries were carefully scrutinized. Funds in his possession were proven to be correctly stated. As mentioned previously, a complete check was made of the cash received and disbursed by him.

Municipal Court

The cash book, check book and criminal docket as kept by the clerk, Henry M. Moffett, were examined. Fines paid as shown by the docket were checked to the cash book. The expenditures recorded were compared with the cases involved in determining their authenticity. The cash book was added. Once each month the net receipts were paid to the City Treasurer.

Receipts	\$ 3,468.61
Expenses	<u>1,579.02</u>
Net Receipts Paid to City Treasurer	<u><u>\$ 1,889.59</u></u>

Library Trustees

The cash book of the Library Trustees showing the income and expenses of the library was examined. The income consists of sums received from the City on account of its appropriation and fines. Minor expenses are paid from a petty cash fund. The disbursements were verified by examination of the canceled checks and vouchers approved for payment by the Library Trustees. Below is a list of the receipts and expenses for the year.

Cash Balance, February 1, 1936		\$ 109.60
Receipts-		
From Appropriation	\$ 6,000.00	
Fines	460.40	
From Equipment Fund (Later charged back to appro.)	500.00	6,960.40
Total		<u>\$ 7,070.00</u>
Disbursements-		
Books	\$ 927.05	
Periodicals	248.15	
Binding	132.49	
Salaries	3,606.20	
Janitor Service	487.40	
Heat	379.57	
Light	370.04	
Supplies	196.82	
Postage	53.93	
Repairs	2.70	
Insurance	34.00	
Improvements	361.70	
Other Expenses	103.66	6,903.71
Cash Balance, January 31, 1937		<u><u>\$ 166.29</u></u>

Bank Reconciliation

Balance per bank statement Jan. 31, 1937	\$ 584.39
Less Outstanding Checks	418.10
Balance as above,	<u><u>166.29</u></u>

General

The minutes of the meetings of the Mayor and City Council were read. Any verifications considered necessary to a thorough audit were also made.

Finally, I wish to acknowledge my appreciation of the courtesies extended and helpful co-operation given during my engagement.

Very truly yours,

HIRAM B. HASKELL

Certified Public Accountant

Report of Public Works

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:

I herewith submit the Report of the Public Works Department for the year ending January 31, 1937.

The regular work of this department has again been curtailed as much as possible throughout year, the same as last year, in order that the funds could be devoted to projects where Relief labor was employed.

Equipment

Several pieces of new equipment have been added to the department during the past year. These include five Ford trucks, one twelve ton tractor and bull dozer, a snow loader and a welding outfit.

Engineering

The regular Engineering work has been carried on throughout the year, such as giving sewer locations, running lines, making the necessary blue prints and specifications. We have again increased the number of registered plans in our files. Many plans and specifications for the Work Progress Administration were compiled and approved.

Snow Removal

The present winter was a very favorable one as far as snow was concerned. We have had only one 10-inch storm and one 14-inch storm. The cost of snow removal will not be reflected in this report since our fiscal year ends on January 31.

Sanding Streets

This has been an exceptionally hard year on the sanding outfit on account of having so much rain. We have spread over 600 yards of sand and over 800 yards of ashes.

Tarring Streets

During the past year we spent very little money tarring streets. This particular item will necessitate an extra expense this year.

Painting Bridges

The Mason Street bridges have been thoroughly cleaned and painted with a priming coat of red lead and a finish coat of aluminum paint. This was a very much needed improvement. All the other bridges in the city should receive a similar treatment as soon as the weather will permit.

Cemetery

The plot of land adjacent to and just south of the city cemetery has been acquired by the city and filled, graded and a 24 inch drain pipe installed. This will make a much needed addition to the city cemetery, and will release for sale a number of cemetery lots.

Concrete Pipe Plant

This plant has been operated by the W.P.A. during the entire year and has supplied all the pipe for W.P.A. jobs. We are now making four different sizes of pipe, from 12 inches to 36 inches.

W.P.A.

The Public Works Department, as in the past, has been called upon to supply materials for WPA jobs. To that end we have supplied material and foreman labor in the amount of \$59,084.00 which represents a considerable amount when we consider that our entire appropriation for the Public Works was only \$140,000.00. Just so long as we have our heavy relief problem just so long will we consider this money appropriately spent.

Mason Street

The straightening of Mason Street was by far the largest job undertaken during the past year. This job consisted of building about 6,000 square feet of road with a total fill of 12,000 cubic yards of gravel, a retaining wall 450 feet long with an average height of 14 feet and a maximum height of 24 feet. A six-foot sidewalk was built on both sides of the street with a concrete guard fence. It was also necessary to remove about 100 cubic yards of ledge. This job was started August 1st and was completed about November 1st.

We invite the general public to visit the Public Works office when they require any information regarding the workings of this department. Our books and files are always open to the public for inspection.

In conclusion, I wish to thank the Mayor, City Council, Public Works Committee and the public in general for the many courtesies shown me in the performance of my duties.

Respectfully submitted,

P. L. MURPHY,

Commissioner of Public Works.
